MEKALA ABHILASH

mekalaabhilash01820@gmail.com +91-7989430063 GitHub LinkedIn Portfolio

EDUCATION

B.Tech in Computer Science Engineering *2023 – Present*
Chaitanya Bharathi Institute of Technology (CBIT), Hyderabad
CGPA: 8.66 / 10

EXPERIENCE

Full Stack Developer Intern *July 2025 – Aug 2025*
Aetherpro Healthcare Private Limited, New Delhi (Remote)

- Engineered and maintained scalable healthcare platform modules, including clinical workflows and internal dashboards using Next.js, React, Node.js, and Express.js .
- Developed and optimized RESTful APIs, improving response time by 20% and enhancing overall system performance.
- Designed and delivered responsive, user-centric interfaces, improving usability across multiple devices.
- Collaborated in an agile development environment, contributing to production-ready code, version control, and deployment workflows using GitHub and Vercel.

Internship Completion Certificate

PROJECTS

AI Powered SQL Data Analyst (2026) GitHub | Demo Video
Tech: Python, MySQL, Streamlit, LangChain, HuggingFace, SQLite, SQLAlchemy, Pandas, Plotly

- Built an AI-powered SQL analytics system using MySQL/SQLite databases and LangChain to answer natural language business queries.
- Integrated LangChain, HuggingFace, and SQLAlchemy for schema-aware SQL generation and data insights.
- Built an interactive Streamlit dashboard with SQL validation, Plotly visualizations, and CSV export.

Multi-Agent AI Research System (2026) GitHub | Demo Video
Tech: Python, Streamlit, LangChain, Google Gemini, Tavily API, BeautifulSoup, FAISS, RAG, Generative AI

- Engineered a multi-agent AI research platform with Search, Reader, Writer, and Critic agents.
- Built a RAG pipeline using LangChain, FAISS, Tavily Search, and Google Gemini for context-aware research.
- Designed a Streamlit interface with real-time agent tracking and AI-powered report generation.

AI Voice Medical Assistant for Healthcare (2025) GitHub | Live Demo
Tech: Next.js, React.js,TypeScript , Tailwind CSS, Vapi AI, Gemini API, Clerk, Neon DB

- Developed a real-time AI voice assistant for healthcare using Vapi AI and Gemini API.
- Processed structured healthcare data to generate AI-driven medical insights and reports.
- Implemented secure authentication and scalable full-stack architecture using Next.js and Neon DB.

TECHNICAL SKILLS

Languages: Python, C++, SQL, JavaScript
Databases: MySQL, MongoDB, SQLite, FAISS
Backend: FastAPI, Node.js, Express.js, REST APIs
Frontend: React.js, Next.js, TypeScript, Tailwind CSS
Machine Learning: Machine Learning, Scikit-learn, NumPy, Pandas, Matplotlib
Generative AI: LLMs, Prompt Engineering, RAG, AI Agents
AI Frameworks: LangChain, LangGraph
Data Analytics: Structured Data Analysis, Data Cleaning, Data Visualization, Statistical Analysis
Tools: Git, GitHub, VS Code, Postman
Core CS: DBMS, Data Structures & Algorithms, OOP, Operating Systems, Computer Networks

ACHIEVEMENTS & CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional – Certificate
- Data Science Foundation Certification – Infosys Springboard (2025) – Certificate
- Completed **GfG 160 – 160 Days of Problem Solving Challenge** – Certificate
- Solved **680+** Data Structures and Algorithms problems on LeetCode (C++) – Profile
- Solved **520+** Data Structures and Algorithms problems on GeeksforGeeks – Profile
